No Cost. Confidential. Judgement-Free.

Summit County Public Health helps people start treatment for opioid use and connect to ongoing care. During your same-day visit, you may receive an assessment, provider evaluation, and Suboxone/buprenorphine when clinically appropriate. SCPH will help schedule your first appointment with an ongoing treatment provider and provide transportation assistance to help you get there.

WE CAN HELP WITH:

- Same-day assessment
- Provider evaluation
- Suboxone/buprenorphine, when clinically appropriate
- Connection to an ongoing treatment provider
- Appointment Scheduling
- Transportation Services
- Peer Recovery Support
- Naloxone and overdose prevention education

Note: For new opioid treatment initiation only. SCPH does not offer ongoing substance treatment management or refills.

Abstinence is not required.
